EDUCATION

Rashtrasant Tukadoji Maharaj Nagpur University

Nagpur, India

Bachelor of Technology in Artificial Intelligence & Data Science

Dec 2021 – May 2025

- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Management Systems, Object-Oriented Programming

TECHNICAL SKILLS

Programming Languages: Java, SQL, Java Script, React

Databases: MySQL, SQL Server

Software Testing: SDLC,STLC, Agile model

Machine Learning & AI: Scikit-learn, Data Analysis, Predictive Modeling

Tools & Technologies: Git, GithUb, Jupyter Notebook, VS Code,AntiGravity

Core Competencies: Data Structures, Algorithms, Object-Oriented Programming, Database Design

PROJECTS

Crop Yield Prediction System | *Python, Machine Learning, Scikit-learn, Pandas*

2025

- Developed a predictive model to forecast crop yields based on environmental and agricultural data using regression algorithms
- Performed data preprocessing, feature engineering, and model evaluation achieving 85% prediction accuracy
- Implemented data visualization techniques to identify key factors affecting crop productivity
- Demonstrated ability to handle end-to-end ML pipeline from data collection to model deployment

Movie Recommendation System | *Python, Collaborative Filtering, Pandas, NumPy*

2024

- Built a content-based and collaborative filtering recommendation engine to suggest movies based on user preferences
- Processed and analyzed large-scale movie dataset with 10,000+ records to extract user patterns and similarities
- Optimized recommendation algorithm reducing computation time by 30% through efficient data structures
- Applied matrix factorization techniques and similarity metrics to improve recommendation quality

Healthcare Management System | *SQL, MySQL*

2026

- Designed and developed a relational database system to manage patient records, doctor information, appointments, and billing using MySQL
- Implemented normalized database schema with primary keys, foreign keys, and constraints to ensure data integrity and minimize redundancy
- Created complex SQL queries, joins, views, stored procedures, and triggers for efficient retrieval, reporting, and automated database operations
- Optimized query performance using indexing and efficient SQL techniques, reducing data retrieval time and improving overall system responsiveness

ACADEMIC & TECHNICAL EXPERIENCE

Artificial Intelligence & Data Science Student

Dec 2021 – May 2025

Rashtrasant Tukadoji Maharaj Nagpur University

Nagpur, India

- * Completed intensive coursework in AI/ML, data structures, algorithms, and software development fundamentals
- * Collaborated on team projects demonstrating strong problem-solving and communication skills
- * Actively participated in coding challenges and technical workshops to enhance programming proficiency

Data Analyst Intern

Inditronics Pvt. Ltd.

- Performed data extraction, cleaning, and preprocessing to prepare datasets for analytics and reporting projects
- Developed interactive dashboards and reports using Power BI to visualize key performance indicators (KPIs) and business insights
- Utilized Microsoft Excel for data analysis, including Pivot Tables, VLOOKUP, and data validation to support decision-making
- Assisted in writing SQL queries to retrieve, filter, and analyze data from relational databases
- Collaborated with cross-functional teams to understand business requirements and deliver data-driven insights

ACHIEVEMENTS & SKILLS

Problem Solving: Strong analytical and debugging skills with experience in algorithmic problem-solving

Fast Learner: Quick to adapt to new technologies, frameworks, and programming paradigms

Team Collaboration: Proven ability to work effectively in team environments and communicate technical concepts

Technical Communication: Able to explain complex technical solutions clearly to both technical and non-technical stakeholders
